

Financial Accounting

While many texts characterize themselves as having either a user approach or a preparer approach, Williams Financial Accounting is written for faculty who want to strike a balance between these approaches. Business majors will find relevance in the Ethics, Fraud & Corporate Governance, Your Turn and Case in Point boxes throughout the chapters while accounting majors will receive a firm grounding in accounting basics that will prepare them for their intermediate course. A unique feature is the multimedia companion, My Mentor. This text-specific technology resource (available free on the books website) uses video clips, animated graphics, PowerPoints and Excel templates to demonstrate accounting concepts visually. This allows students to link concepts and numbers together in an interactive rather than print environment.

A: The focus of financial accounting is on summarizing and reporting a business financial position to entities outside the business with a vested interest, such as - 10 min - Uploaded by perdiscotvA video summary of chapter 1 in Perdiscos Financial Accounting 360Textbook.
