

Makeup for Ageless Beauty: More than 40 Colorful, Creative Looks for Women 40 and Over

In *Makeup for Ageless Beauty*, internationally renowned makeup artist Linda Mason shares her creative techniques for using makeup to look and feel your best, at every age, every day, to suit every mood and occasion. Linda begins with how to take care of and prepare skin for makeup, create a fresh and beautiful canvas for the rest of your look, and use color on eyes, cheeks, and lips. She then presents more than 40 original makeup looks in three categories: Subtle, Glamorous, and Creative—all illustrated with detailed sketches. Featuring beautiful women from all walks of life, including such supermodels and celebrities as Anna Bayle, Brooke Shields, Carol Alt, Frederique van der Wal, Joan Jett, Kim Alexis, Paulina Porizkova, and Veronica Webb, *Makeup for Ageless Beauty* will show you how to makeup beautifully for the rest of your life. I've worked with Linda several times over the years, starting with a *Vogue* shoot when she first arrived in New York. I'm amazed at the variety of different looks she's created for me; they always let me shine through. Isabella Rossellini
