

## Roulette Playing to Win

Brett Morton wanted to prove the experts were wrong. Win at roulette? they scoffed. Impossible. So he set about learning how to play, observing why people won and lost. Over the past decade he has debated with casino staff, statisticians, mathematicians, friends and other experts. All bar one were convinced that the casino could not be beaten - or if it could, then not consistently. But Morton insists the experts are mistaken, something he has learned through sheer discipline, by keeping it simple and understanding that winning at roulette is a percentage game. This book explains in plain language just how easy it is to win or lose at roulette and how you can learn to win consistently. Morton explains the methods used, rates many of the well-known systems but above all brings a clear and refreshing vision to this tantalising game.
