

MCTS Self-Paced Training Kit (Exam 70-642): Configuring Windows Server 2008 Network Infrastructure (PRO-Certification)

Announcing an all-new Self-Paced Training Kit designed to help maximize your performance on 70-642, the required exam for the new Microsoft Certified Technology Specialist (MCTS): Windows Server 2008 Networking Infrastructure Configuration certification. This 2-in-1 kit includes the official Microsoft study guide, plus practice tests on CD to help you assess your skills. It comes packed with the tools and features exam candidates want most including in-depth, self-paced training based on final exam content; rigorous, objective-by-objective review; exam tips from expert, exam-certified authors; and customizable testing options. It also provides real-world scenarios, case study examples, and troubleshooting labs for skills and expertise that you can apply to the job. Work at your own pace through the lessons and lab exercises. Focusing on Windows Server 2008 networking, this official study guide covers configuring remote access, Network Access Protection (NAP), network authentication, IPv4 and IPv6 addressing, and Domain Name System (DNS) replication; capturing and deploying Microsoft Windows Deployment Services images; creating virtual machines; and installing server core. Then assess yourself using 300+ practice and review questions on the CD, featuring multiple, customizable testing options to meet your specific needs. Choose timed or untimed testing mode, generate random tests, or focus on discrete objectives. You get detailed explanations for right and wrong answers including pointers back to the book for further study. You also get an evaluation version of Windows Server 2008 and an exam discount voucher making this kit an exceptional value and a great career investment. Key Book Benefits In-depth coverage of exam objectives and sub-objectives plus instructive case studies and troubleshooting scenarios to enhance your performance on
