

Tracks in the Psychic Wilderness

For twenty years, the United States government employed a team of remote viewers, or psychic seers, to investigate potential threats to the safety of the nation. This program, called STARGATE, was terminated, and was subsequently the topic of a 1995 Nightline expose. Now in paperback, Tracks in the Psychic Wilderness, is the story of Dale E. Graff, the projects former director. Explaining how STARGATE investigators used ESP, remote viewing, precognitive dreaming, and synchronicity to rescue American hostages, and locate missile targets, Tracks in the Psychic Wilderness is Graffs personal account of a fascinating, top-secret government project. STARGATEs team of psychics was used to assist drug enforcement agencies, locate plutonium in Korea, and track down Momar Gadhafi. The Pentagon spent over \$20 million dollars of taxpayers money on this program. Told in Graffs own words, Tracks in the Psychic Wilderness is a must for those determined to learn the true role of parapsychological phenomenon in national security.
