

# Chinese (Electro) Acupuncture Cure for Chronic Pain

This book is about chronic pain related to rheumatism. In the Chinese Medicine, chronic pain related with rheumatism is known as Bi-Syndrome, and is related to musculo-skeletal problems. Chinese Medicine understands the musculo-skeletal problems and how to treat it effectively. Chinese electro-acupuncture can cure this kind of chronic pain in a short time. The purpose of this book is to introduce this technique and to emphasize the importance of integrated medicine, because misinterpretation of the pain related with rheumatism happens regularly, if doctors are not familiar with Myofascial Trigger Point (Tenderpoint - Ashipoint), as part of musculo-skeletal problems.
