

Shake Em Up & They All Fall Out the Same: The Little Book of Men

As a licensed social worker, Armitia Walker has seen it all. Shes met people from every walk of life-all trying to find their own way in this crazy world-but shes paid particular attention to the other sex. In *Shake Em Up & They All Fall Out the Same* Armitia offers up a humorous, tongue-in-cheek catalog of various types of men, including: Married - This guy is devoted to his wifey. He wears his wedding ring with pride. He has a true tan line on his ring finger because he never takes the darn ring off. He takes care of home, and his wife is his first priority. He would never dream of hurting her. Cheater - This guy couldnt be faithful if he was sitting in a church. He does not know the meaning of monogamy. To him, women are like a box of candy: soft, chewy, caramel, chocolate, smooth, fluffy, etc. Hes just got to sample them all. He has to have a variety of women to meet all of his needs. Minute man - No, hes not the watch repairman. Need I say more? Filled with amusing descriptions of men, this book will shed new light on your past, current, and potential relationships. These men are your brothers, uncles, fathers, boyfriends, and husbands. As a woman, youve probably already encountered at least one man whos portrayed in this book-and if you havent, hold on-hes probably just around the corner.
