

Heal Your Self, Heal Your World: Turn Illness and Suffering into Health and Peace Through Scientifically Proven Methods

While trying to console two young women whose mother was drowning in her own blood, dying of complications of the unneeded medical treatment he had participated in, Dr. Brian Rees began to think there must be a better way! Have you ever had an operation or taken medicine that made you feel lousy? Would you be interested in another approach if it could address your problems and make you feel better at the same time? In HEAL YOUR SELF, HEAL YOUR WORLD you can find out what's wrong with today's medicine and what you can do instead. Dr. Rees uses the oldest and most time-tested system of natural medicine on earth to teach people how to enliven the inner intelligence of the body to get well, stay well, and avoid having to go to doctors. * FACT: your doctor isn't trained to know anything about health * FACT: our current approach to prevention doesn't really prevent * FACT: sticking with only modern medicine will cost you and society pain and money * FACT: proven public health tools exist to prevent crime and to rehabilitate criminals, but politicians are afraid to implement them * MYTH: people can't postpone their own deaths * MYTH: you can't reverse the aging process or prolong life by mental methods (are you taking DHEA? wouldn't you rather be making it inside you?) Dr. Rees can explode myths from the alternative medicine side of the coin as well: * MYTH: the relaxation response works just as well as the Transcendental Meditation it was copied from * MYTH: you can't afford the luxury of a negative thought * FACT: beware of positive thinking: it can kill you * MYTH: vitamins are effective in getting you the anti-oxidants you need * MYTH: if it's in your genes there's nothing you can do about it * FACT: if you have cancer or AIDS, there are alternative practitioners you should definitely stay away from Brian Rees M.D., M.P.H. has impeccable

credentials. He is a graduate of Tulane University School of Medicine, has a Masters degree in Public Health and is a board certified specialist in family practice.

He also is the commander of a U.S. Army Reserve hospital unit. He has been the medical director of the Maharishi Ayur-Veda Medical Center in Pacific Palisades California since 1987.
