

## Love Conquers All?: One Womans Story - Youre Not Alone

I wrote this book thinking it was only about dealing with infidelity in a marriage, after completion I was advised my ex has been diagnosed as a narcissist sociopath. I didnt even know what that entailed so I did my research and was I surprised I was reading about my life. This isnt about how to get through it, that will be my next book, this may give you insight if you are or have lived the same thing if you might be living with a narcissist. Remember, sometimes the best choices are the hardest ones to make! I wonder, if a man could see the devastation to the one he says he loves, would he make the same choices? Yes if hes a narcissist. It isnt you. I am not a professional therapist or counselor and I do not have a degree from some special school. I am just me, a wife, a mother, a daughter, an aunt and a friend and most of all, a woman. I know that when I was going through some of the toughest times in my life, I had never felt so alone. Oh I had friends that were always there for me, but if you have ever experienced infidelity you will know what I mean when I say you can be in a room full of people and feel like you are the only one in the world. It is a hurt that has many faces. I never knew that so many emotions could exist let alone that you could feel so many of them all at the same time. I was the one that was let down, betrayed and damaged. I remember feeling how very unfair. Here he gets to go out and have his fun, experience whatever temptation it was that was so impossible to say no to, the one that made it worth risking everything we had built together, and yet here I was the only one with the hurdles to cross and the heartache to repair not to mention trust, intimacy, friendship, self-worth, confidence and forgiveness to find. I know that while my world was falling apart I could have used the words of someone who had been there. Not a fix, not a self-help book just the words of someone that had been through the same

heartache that would understand. Maybe had I been able to read their story I wouldnt have felt quite so alone or went down the road I did. How many of you out there have heard the words forget it and move on, quit dwelling on it, why are you doing this to yourself, dont obsess? Well I have heard each and every one. Why is it that no one seems to understand none of the above are a choice? These are not feelings that are fun to feel or emotions we seek out for what, self-pleasure? Do people not understand that we would gladly never experience another memory of the man we love with some woman if only, it was a choice? So I am telling you my story, maybe as much to help me as to help you. Im not looking for sympathy or answers because there arent any no matter how many books you read about forgiveness and how if you turn the other cheek love will get you through. No one will get you through but you. It is a choice to move forward. I chose to stay. It wasnt an easy choice but as it turns out because he is a narcissist it was the wrong choice. They dont feel love, he never loved me hes not capable, that takes some time to wrap your mind around after 26 years of love being real for you. My second book will cover each chapter of how I moved on or am moving on Im still not fully there yet. I really hope any of you wondering is it all my fault, everyone gets along with him but me so I must be the problem, will read this book, that was me. He never apologized for cheating he blamed me for the reason he did, has this happened to you and that is only the tip of the ice burg for what he put me through and made me do because I thought if I didnt I would lose him. Dont be me dont take 26 years to figure it out and decide to go or stay, read my story see if its yours and then decide. Hence, I am left with the old saying of once a cheater always a cheater and wondering if in time I will find that it is true or if men can really change. I found out its true. Heres my story!
