

# Palestine & Lebanon at the Crossroads: Occupation and Resistance

Examining the causes and objectives of the U.S.-backed Israeli attacks on Palestine and Lebanon, this anthology reveals critical information about the unreported crimes against humanity perpetrated by the United States and Israel. Along with Israel's criminal use of U.S. cluster bombs on civilians and civilian infrastructure, this expose of the dangers of U.S. foreign policy includes chapters on the historical context of the conflict, the underlying political and economic interests, and eyewitness reports and interviews.
