

# Patrick Moores Yearbook of Astronomy 2014: Special Memorial Edition

Shortly before his death in December 2012, Sir Patrick Moore began the annual task of planning the 52nd consecutive Yearbook of Astronomy with his friend and colleague Dr. John Mason. This special 2014 edition therefore serves as a fitting tribute to the life and work of a man who worked on this unique reference book for over half a century. The 2014 Yearbook contains all of the usual articles that no stargazer should be without: an authoritative collection of charts and astronomical data, articles by some of the worlds leading astronomers, and a month-by-month guide to events to look out for over the coming year from planets and eclipses, to comets, meteors, nebulae, and phases of the Moon. But it also includes a special section of articles devoted to the memory of Sir Patrick himself. Written by notable contributors and Yearbook authors past and present, these articles recall Sir Patricks many contributions to astronomy, as well as anecdotes and personal memories of this remarkable man.
