

Plundered Nations?: Successes and Failures in Natural Resource Extraction

This book consists of eight case studies investigating the political economy of the decision chain involved in natural resource extraction in resource-rich countries, where plunder rather than prosperity has become the norm. Some case studies reveal successes, while others show the decision chain to have failed disastrously.

Successes and Failures in Natural Resource Extraction: 9780230290228: Economics Books Plundered Nations is a very important book at a crucial time. The study of natural resource extraction in resource-rich countries often shows that plunder, rather than prosperity, has become the norm. Plundered Nations? has 4 ratings and 0 reviews.
