

M: Business with Prep Cards and OLC Access Card

Overview: M: BUSINESS was created with students and professors needs in mind. Students receive a cost-effective, easy to read text complete with study resources (both print and online) to help them review for tests and apply chapter concepts. Professors receive a text that contains all the pertinent information we know they cover in Introduction to Business - yet in a more condensed format that is easier for students and instructors to cover in 1 term. It also contains gradable online assignments for instructors to assign. M: BUSINESS also includes comprehensive teaching support and online supplements mainly, CONNECT BUSINESS. The story behind M: We have heard over and over again that the modern learner has a completely new and different set of needs from a learning package. These new digital natives have developed cognitive thinking patterns that are different from those of earlier generations of students. Its important that educators recognize these differences in students, and that they also account for students with differing learning styles. Students today rely on technology as an important tool in their educational and personal lives. M: BUSINESS accounts for these differences in students today and appeals more effectively to digital natives. An emphasis is placed on the visual and technology component of the product offering (Connect Interactives), while the text remains a (important) supporting tool for their learning in the course. Students today are used to active learning experiences which is what M: Business provides. The book in combination with the interactives in Connect Business provide students with a rich, interactive experience that enhances the text content, and keeps them actively engaged in the course content. Students today are also used to feedback and payoff - Connect Business provides these interactive rewards for learning the course

content.
