

Resurrection: The Struggle for a New Russia

Pulitzer Prize-winning author David Remnick chronicles the new Russia that emerged from the ash heap of the Soviet Union. From the siege of Parliament to the farcically tilted elections of 1996, from the rubble of Grozny to the grandiose wealth and naked corruption of today's Moscow, Remnick chronicles a society so racked by change that its citizens must daily ask themselves who they are, where they belong, and what they believe in. Remnick composes this panorama out of dozens of finely realized individual portraits. Here is Mikhail Gorbachev, his head still swimming from his plunge from reverence to ridicule. Here is Vladimir Zhirinovskiy, the half-Jewish anti-Semite who conducts politics as loony performance art. And here is Boris Yeltsin, the tottering populist who is not above stealing elections. In *Resurrection*, they become the players in a drama so vast and moving that it deserves comparison with the best reportage of George Orwell and Michael Herr. This is what happens when a good writer unleashes eye and ear on a story that moves with the speed of light. *Resurrection* has the feel of describing vast, historical change even as it is happening.--Chicago Tribune
