

No Child Left Behind (NCLB) (Volume 1)

Inspired by real people and real science. Nerdy loner Geoff Moraine would rather die than spend high school in rural West Rock zonked on ADHD drugs or banished to Special Ed. But then Lord Kemp, the leader of a band of meta-human refugees from a war-torn parallel universe, zaps Geoff's attorney mom into becoming his Retainer. Now all Mom thinks about is setting up a prep school on Lord Kemp's estate to hide the Fulgoran refugees in plain sight. A school where Geoff and other neurodivergent West Rock kids could get custom-tailored courses. Which sounds like a great idea, if you don't know Lord Kemp's friendly tutors are brain-meddling mutants! As Geoff fights to protect the Special Ed kids, armed only with a hat lined in foil and magnets, he finds allies--and actual friends--in the strangest places. But those allies and friends reveal perils much graver than the proposed school: evils that threaten the very survival of the Fulgorans, West Rock, and Geoff's stubborn principles.
