

This monthly compendium of statistics and articles on the UK economy contains data on UK economic accounts, prices, labour market, output and demand indicators, selected financial statistics, gross domestic product, consumer and wholesale price indices, households final consumption expenditure, final expenditure prices index, visible and invisible trade balance, earnings, and regional and international economic indicators. Includes articles on national accounting, trade, wider economic issues, research and development statistics and international comparisons. From October 1998, the national accounts data in Economic Trends is consistent with the European System of Accounts (ESA 95).
