

# Stalins Curse: Battling for Communism in War and Cold War

At the Big Three conferences of World War II, Joseph Stalin persuasively played the role of a great world leader, whose primary concerns lay in international strategy and power politics, and not communist ideology. Now, using recently uncovered documents, Robert Gellately conclusively shows that, in fact, the dictator was biding his time, determined to establish Communist regimes across Europe and beyond. His actions during those years and the poorly calculated responses to them from the West set in motion what would eventually become the Cold War. Exciting, deeply engaging, and shrewdly perceptive, *Stalins Curse* is an unprecedented revelation of the sinister machinations of Stalins Kremlin.
