

Report of the Commissioners to Ascertain and Settle: The Boundary Line Between the States of New York and Connecticut (Classic Reprint)

Excerpt from Report of the Commissioners to Ascertain and Settle: The Boundary Line Between the States of New York and Connecticut

The controversy between the States of New York and Connecticut has been called, and perhaps justly, one of the most extraordinary of the kind, especially in enlightened times and between friendly States, each professing to have a proper regard for the rights of the other. It is difficult, if not impossible, to account for the many embarrassments and controversies that have attended it, extending over a period of about two centuries, and its history is worthy of special attention at this time, as illustrative of the importance of our position, when we feel that we may be warranted in stating that it has been finally terminated in a manner just to the respective States, and satisfactory to all directly concerned. A reference to a few prominent facts will serve, not only to show the character the controversy has at times assumed in the distant past, but in events of recent date, and also the importance of the conclusions to which we have arrived, fully sustaining the interests of New York while respecting as sacredly the rights of Connecticut. The original strife had its origin in the early settlement of emigrants from Connecticut on Long Island Sound, within territory claimed and held by New York. The bounds of the respective provinces not being defined by any distinct lines, and the people not fraternizing with the Dutch settlers of New York, but being anxious to remain under the jurisdiction of Connecticut, an effort was first made in 1664 to have a boundary located and defined, and for that purpose Commissioners were appointed on the part of the Duke of York, and delegates on that of the colony of Connecticut.
