

Bigfoot Is Here in Michigan

Bigfoot Is Here On a farm in Manistee, Michigan by Liz LaMac Foreword by George Dudding This book is full of true facts, stories and true reported sightings of the biped beast called Bigfoot. After Benson Lambert retired he moved back to his hometown of Manistee, Michigan. There he learned the hard way about Bigfoot. Early one morning he went for a walk on the farm and he made a wrong move; he stepped into the darkness of the wooded area. Instantly he heard loud banging on the trees and it terrified him. But he kept going until he was hit on the head by a rock. Benson fell to the ground. Now, there is no way he can survive a winter night in Manistee, Michigan without help. Bensons limp body lays heavy on the cold wet Michigan sod. As he drifts in and out of unconsciousness he hears a loud bellowing screaming sound. Benson doesnt know it, but it is the sound of a Bigfoot.
