

# Style for Fat Guys - The Fundamentals of Mens Style (Style for Men)

Style for Fat Guys is a simple, illustrated guide to becoming a well-dressed overweight man. It documents the fundamental factors that make overweight men appear unattractive and teaches the reader how to use clothing to create a strong, masculine figure. (Authors note: The word fat is not used in this book, and is only included in the title because its the most commonly-used search term by large men wanting to dress better. The book is non-judgemental and gives genuine advice on dressing for this body type. I dont care how much you weigh - I just want you to look good!)When large men want to learn how to dress well, they often turn to blogs, forums and self-proclaimed fashion experts for help, all of whom churn out the same hackneyed advice (Dont wear horizontal stripes; Wear vertical lines; Wear dark colours!) while offering little explanation as to why these rules exist.This book is different. Instead of giving a quick list of DOs and DONTs, Style for Fat Guys discusses how to normalise your bodys proportions, how clothes are supposed to fit and which styles overweight men can wear to make their bodies look as attractive as possible.

Instead, look at Okay, Ive got style. Im a big guy, yes, I know that. But Ive got style. I care about the details. I pay attention to those things and thats the kind ofBuy Style for Short Guys - The Fundamentals of Mens Style (Style for Men): Read 5 Kindle Store Reviews - . mens style tips articles and baseless style/fashion advice on the internet (especially on big websites). 22 Style Fundamentals Every Man Need to Follow Some guys think Oh, I dont want to look like I am showing offThe 10 timeless styles tips for men that Antonio wants to share to every man, no matter where he is in People often ask me what MY personal style rules are.Style for Fat Guys - The Fundamentals of Mens Style (Style for Men) James Gallichio 2.9 out of 5 stars 9.
