The Manly Art of Seduction, How to Meet, Talk to, and Become Intimate with Anyone

Men are not supposed to be seductive. Perry Brass heard this while very young, so of course it gave him an open field in a kind of behavior that can be exciting, fulfilling, and satisfying. If you feel you're always waiting for someone else to make the first move if you're traumatized by your fear of rejection and don't have a clue how to open a conversation or expand the terms of a relationship, *The Manly Art of Seduction* is a must-have. Brass explains male territorialism, and how it keeps men locked inside themselves. He tells you exactly how to use an understanding of male territorialism to your own advantage, allowing other men to feel secure in those very insecure moments of meeting and negotiating closeness. He talks about making decisions yourself, and how these decisions can be used to make seduction possible and often even easy. He deals with the alien monster; of rejection, and how to use mind pictures, exercises, and self-knowledge to rejection-proof your psyche. At the end of most chapters are questions you can use to tailor this book to your needs, seeing your own progress as you come to master this art. Although seduction is a part of our commercial environment, Perry Brass has brought it to a place where we can find spiritual and inner nourishment, and where the chronic aloneness of much of life can be changed into a state of genuine delight and deeper sexual and emotional connections. Relationships between men can run the gamut from brief connections to long-lasting commitments. This book demonstrates how to break through fear and old patterns to increase your seduction skills and decrease missed opportunities. No matter what kind of connection you might be looking for, the advice offered here is helpful, sharp, and pulls no punches. But the tough love is served with

style and humor. Dave Singleton, author of *The Mandates: 25 Real Rules for Successful Gay Dating* *The Manly Art of Seduction* is for men who seek greater intimacy of the physical or emotional sort.
