

Book I & II Neo Genesis: Revelations of the Wise Theory

Is it possible for any religion or institution of research and higher learning to know and understand all of the mysteries of creation and the origin of humankind? Does the Bible have the only correct answers to creation and salvation? Does Christianity own the rights to all knowledge on God and Christ? Does science have the definitive and correct answers for understanding the cosmos and all studies of human origin? Who is responsible for seeking the truth? Does God still speak His mysteries to humans as He did in the beginning? If God spoke His mysteries to you, would He be offended if you denounced them to cling to the accepted teachings of the day? These are among the many questions that make up the depth of this dissertation. Dr. LaJune Wise {Waterfall} gives prudent testimony from the school of science, and Christianity to include the Bible, the Book of Enoch and other writings to defend the critical need for: The Ministry of Open Ended Process Theology. She will also introduce a personal theology composed of the revelations and mysteries that the Holy Spirit made known to her. This process theology is called The Neo Genesis Contained within these pages are some enlightening and insightful thoughts and ideas that many of you may not have considered before. Or, perhaps, you have considered such but never for long. The author of this book, Dr. LaJune Wise, has considered these insights in depth. Contained in these pages are her thoughts, opinions, and impressions in relation to her development of her Neo-Genesis theory. I encourage anyone interested in the paranormal or spirituality to read this book and become well acquainted with Dr. Wises Neo-Genesis theory. She brings new insights and thoughts into how humanity and the world were created, what angels are and are not, the rank and characteristics of evil spirits and many other dimensions

and realms of the spirit world. In addition, she is not only knowledgeable in spiritual matters but she shows a rare and genuine enthusiasm for the subject. Moreover, she introduces a very compelling theory on life-after-death. We presently live in times that are calling for new paradigms. The old paradigms simply will not work anymore and, in fact, they are not working. We must open our eyes and our minds and expand our horizons with new wisdom and new insight that we can become better able to develop the new paradigms being called for today. Dr. Wise is a proven pioneer in this endeavor for this new century! It is my hope that she will not end with this book but will write more in the future as guidance for all who seek.
